

Internship Program

2023

General Overview

HEART's Internship Program is for high school and college students who desire more knowledge and hands-on experience in ministry, by assisting our mothers and children in Kenya. Interns will connect with others, experience transformational ministry, find a calling, and grow closer to God.

Working alongside HEART Kenyan staff, interns benefit from hands-on opportunities to help accomplish important projects. With their God-given skills and talent, students will have the ability to participate in many programs, such as education, medical assistance, finance, hospitality, and more! Whether your passion is medicine or photography, HEART has a place for you.

Interns will be assigned an intern coordinator to guide them along their month-long trip. The intern coordinator will be assisting 24/7 to provide any help needed as well as coordinate fun outings. The Elephant Orphanage, Giraffe Center, and Nairobi National Forest are some examples.

We keep our interns busy with work (and fun!), so join us and expect a memorable stay in Kenya! Dream Big and Go!
